National Treasures**

# We Solve Pest Bird Problems Permanently Across The U.S.

## AMERICA'S BEST BIRD SYSTEM

We design and install America's #1 bird system. Our system is custom designed, aesthetically pleasing, permanent, environmentally "green" and guaranteed.

## ACTIVE BARRIER MIGRATORY BIRD SERVICE

Starlings, grackles, and other flocking pest birds, roosting in trees at night, take over properties, soil public sidewalks, destroy landscaped areas, and raise health concerns. Monitoring, follow up and maintenance are part of the overall service. Landscaped areas are protected from the problems of flocking birds with our Migratory Bird Service.

*"I really didn't think what Avian proposed would work so well, but they had it dead on. We thought the birds would just move, but they just went away and stayed away. Great job!"*

Time Warner • Flushing, New York

Phoenix Children's Hospital

## INVISIBLE BIRD RELOCATION SYSTEMS

This system is non-lethal, cost effective, unobtrusive, and easily maintained. Low visibility makes our system perfect for historical applications. Specified by architects for installation on the Lincoln, Jefferson and World War II Memorials.

Custom Designed  
Professionally Installed  
Satisfaction Guaranteed

## AVIAN AVERTING SYSTEM

The Avian Averting System is based on the Pavlovian Theory of behavior modification. This technique trains birds to avoid your building, thus eliminating nesting and roosting sites.
